

MES™ CONVEYOR BELT CLEANER

Introducing our newest cleaner: **MES**

The Argonics MES conveyor belt cleaner is an **upgrade to our Micro Eraser™ cleaner**, providing low maintenance and high performance in a low-cost package.

The **universal mounting plates** are designed to retrofit existing layouts, allowing our cleaner to easily mount on conveyors designed to use other OEM cleaners.

The cleaner uses a **newly designed tensioner** that allows for quick and easy tensioning.

TRUST THE PERFORMANCE-TESTED SOLUTION FROM ARGONICS

Why Choose the MES Cleaner?

UNIQUE DESIGN FEATURES

Newly Designed Tensioner:

The simple but effective design is based on our patented Safe Torque™ tensioner. It has been redesigned specifically for the MES, for quick, easy, and reliable tensioning. The steel-core, urethane-coated ratcheting sprocket is protected from the elements by a safety-yellow steel cover.

Compact Mounting Footprint:

Unlike other belt cleaners, the MES has a very compact mounting footprint, along with a low-profile tensioning assembly, which makes it perfect for all types of conveyors.

Retrofits Conveyors with other OEM Cleaners:

The universal mounting plates allow the MES to easily fit conveyors designed for other OEM cleaners.

BENEFITS AND HIGHLIGHTS

Cost-Effective:

Experience superior performance without breaking the bank.

Durability:

Built with high-quality materials to endure even the most extreme conditions, ensuring unmatched durability and reliability.

Ease of Use:

Engineered for rapid installation and reduced maintenance, the MES cleaner features an innovative internal tensioner and operates without external springs.

Efficient Blade Replacement:

The single-pin blade attachment allows quick and easy blade changes, reducing downtime and maintaining smooth operations.

Versatility:

Accommodates belt widths from 18" to 54" (457 to 1372 mm), with custom sizes available.
