

# CHEVRON CONVEYOR BELT CLEANER

MADE IN  
THE U.S.A.

## Introducing the Chevron Belt Cleaner

The Argonics chevron conveyor belt cleaner is designed for hard-to-clean **chevron, cleated, or raised rib belts**, providing efficient carryback removal.

The **polyurethane fingers** are designed to remove material without damaging the belt.

Designed for efficiency and reliability, the Chevron Belt Cleaner ensures optimal performance in a wide range of demanding applications while protecting the integrity of your conveyor system.

# Why Choose the Chevron Belt Cleaner?

## UNIQUE DESIGN FEATURES

### **Straightforward Design:**

The Argonics Chevron Belt Cleaner is designed for straightforward installation and minimal maintenance. The cleaner's modular blade design allows for tool-less replacements, reducing downtime and enhancing operational efficiency.

### **Low-maintenance Operation:**

The absence of exposed springs or components susceptible to material build-up ensures reliable performance in dusty or abrasive environments. Powder-coated steel components hold up in harsh environments.

### **Kryptane® Polyurethane:**

Our Kryptane polyurethane stands out due to its exceptional durability, abrasion resistance, and versatility across various applications. Engineered specifically for demanding environments, it exhibits superior resilience against wear and tear.

## BENEFITS AND HIGHLIGHTS

### **Durable Blade Design:**

Features 9.5" tall polyurethane blade sections with 6" tall, flexible fingers. The 6" wide blade sections easily slide onto the mainframe for quick and simple replacement.

### **Belt Compatibility:**

The cleaner is safe for use on chevron, cleated, and raised rib belts, and is suitable for both mechanically spliced and vulcanized belts.

### **Versatile Applications:**

Well-suited for industries like sand processing, biomass power plants, recycling, agriculture, food processing, timber, paper manufacturing, and port loading facilities.

### **Sizing:**

Accommodates belt widths from 12" to 72" (305 to 1829 mm).
